Seeking a long-term Captain's position aboard a private 50-80' Sportfish, or 60-100' motor yacht, with preference given to a fishing-minded program based in Florida, USA and Bahamas. Looking forward to utilizing my engineering & mechanical, emergency medical, fishing/diving experience, managing crew, safety operations and protocols, compliance, yacht budgeting/maintenance, and smooth program operations to provide a five star yacht program and experience to Owner's and guest's delights.

PROFESSIONAL PROFILE

Experienced mariner with zero insurance claims against my license while driving, docking, towing, and maintaining various vessel builds to 116'.

Strong communicator and highly organized individual with ability to add value to yacht programs through planning, organization, training, communication, relationship building, employment of technology and tools, and broad set of experience and skill sets.

NOAA Blue Star Fishing Guide Recipient. Successfully led offshore fishing programs.

Strong engineering experience, as well as managing yard periods, major repairs, overhauls, refits, and evaluating and selecting vendors and contractors to meet the needs of Owners and clients.

Ability to set up and administered provisioning, inventory controls, maintenance, and budget/accounting and operational reporting systems.

Maintain detailed scheduled maintenance programs to ensure vessel is available for Owner use when needed.

Excel at working with Owners and principals on travel itineraries, guest activities, excursions, guest requests and preferences to ensure all expectations are met and exceeded.

10+ years as Firefighter/Paramedic with ability to handle tasks under high-stress situations in varying circumstances.
